

## **Pedigree Service List 2012**

### **Broodmare Breeding Report**

Broodmare Breeding Report: \$125 per report; \$100 for two reports; \$50 for three or more.

#### **Broodmare Breeding Report includes:**

Breeding analysis based on your budget and location.

Full dam's sire and broodmare sire statistics; produce/auction report, concise and specific analysis of the dam's distaff family highlighting blacktype;

Five or more stallion matches for your mare; thorough study of each prospective stallion's conformation, temperament, record at stud, two years of auction results.

Meticulous hypo-mating analysis encompassing nicking information, pedigrees, key ancestors, dosage profiles, charts and more.

We can also negotiate stud fee discounts and submit all necessary paperwork to the farms once your breeding decision is complete. Please contact us for a sample report.

Reports are available through email and/or mailed as a hard copy with a CD.

### **Sales Research and Analysis**

Sales Catalog Analysis: \$50 per report; \$25 for three or more.

Our in-depth reports include nicking ratings from two prominent companies, plus our own nicking recommendation going back two generations;

Graded and listed blacktype winners bred along similar lines;

Stallion and broodmare statistics plus two years of sales figures for the sire; distaff family auction results and full progeny records;

Optimal surface and distance suggestions for the sales prospect, Dosage profiles and more.

Psychological profiles are also available through the Thomas Herding Technique.

Reports are available through email and/or mailed as a hard copy with a CD.

### **Racing Prospect Analysis**

Racing prospect analysis: \$50 per report; \$25 for three or more.

With your budget, location and specific goals in mind, we will track racing prospects and notify you or your connections when a suitable match is located.

We will provide a detailed assessment of the sire and distaff families, auction and race records for the dam and siblings, nicking ratings, similarly bred stakes winners, dosage and surface/distance recommendations.

Psychological profiles for your stable are also available through the Thomas Herding Technique.

Reports can be produced within 24 hours, in some cases the same day, and can be emailed and/or mailed as a hard copy with a CD.

Sample reports for all products and references are available. Please contact us for more information.

*Ten percent of all profits are donated to thoroughbred rescue and re-training organizations.*
